Fastest Shared Web Hosts

40 popular web hosts ranked by worldwide and U.S. page-load speed

NCM Online purchases the cheapest available shared web hosting plan from companies to be evaluated in order to perform 10-day uptime and speed testing. Identical 1-page test sites are uploaded to each host's servers. [Click here](#) for sample test site.

Utilizing the services of [Dotcom Monitor](#), host servers are checked for page-load speed and reliability every 15 minutes from 13 worldwide locations including 7 within the United States. Approximately 2000 individual checks are performed during each host's 10-day testing period.

The results have been compiled in the table below with hosts ranked in order of fastest worldwide and within the U.S..

See respective [web hosting reviews](#) for test result charts, comprehensive ratings, [coupon codes](#), pricing information and recommendations. This page was published on September 3, 2014 and last revised on January 8, 2015.
