

# Fastest Shared Web Hosts

50 popular web hosts ranked by worldwide and U.S. page-load speed

NCM Online purchases the cheapest available shared web hosting plan from companies to be evaluated in order to perform 10-day reliability and speed testing. Identical 1-page test sites are uploaded to each host's servers. [Click here](#) for sample test site.

Utilizing the services of [Dotcom Monitor](#), host servers are checked for page-load speed and uptime every 15 minutes from 13 worldwide locations including 7 within the United States. Approximately 2000 individual checks are performed during each host's 10-day testing period.

Fastest web hosting services results have been compiled in the table below with hosts ranked in order of worldwide and U.S. page-load speed.

[See respective web hosting reviews](#) for test result charts, comprehensive ratings, [promo codes](#), pricing and recommendations. This page was last revised on March 30, 2015.

WORLDWIDE SPEED RANK	UNITED STATES SPEED RANK	WEB HOSTING COMPANY	AVERAGE SPEED WORLDWIDE*	AVERAGE SPEED U.S. ONLY**	10-DAY UPTIME
